2. On 14 February C/PPS and I attended a meeting in the DDS conference room to discuss the NPIC unclassified holding program. Representatives of NPIC, the Office of Personnel, the Office of Security, the Office of Medical Services, and the Office of the DDI also attended. [redacted] conducted the meeting. Procedures for carrying out the procurement, clearance, and processing of the NPIC recruits were agreed upon, and the training problem was discussed briefly. I made it clear at that meeting, and [redacted] made it clear at a subsequent meeting at NPIC with C/PPS, [redacted] of NPIC, that the Intelligence School will cooperate in every possible way but that all instructors qualified to give speaking, writing, geography, and photo-intelligence instruction are fully committed, primarily to the CT program, from 1 April through December and cannot be assigned to the NPIC unclassified training program.
